Journal of Ethnopharmacology 42 (1994) 209–212

Journal of ETHNO-PHARMACOLOGY

Subject index

Volume 42 (1994)

Acute cytotoxicity; Ethnomedicine; African medicinal plants; Antiulceration **42**, 13

Aedes aegypti; *Ambrosia maritima*; *Anopheles stephensi*; Toxicity; Larvicide; Larval inhibition **42**, 7

Africa; Medicial plants; Mauritius; Antiviral; Poliovirus; Herpes Simplex Virus; Rhinovirus **42**, 101

African medicinal plants; Ethnomedicine; Antiulceration; Acute cytotoxicity **42**, 13

Ambrosia maritima; *Anopheles stephensi*; *Aedes aegypti*; Toxicity; Larvicide; Larval inhibition **42**, 7

Anacardiaceae; *Rhus glabra* L.; Antimicrobial; Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); 4-Methoxy-3,5-dihydroxybenzoic acid; Gallic acid **42**, 95

Analgesic testing; *Celastrus paniculatus*; *Tecomella undulata*; Methanolic extract; Anti-inflammatory testing **42**, 193

Anopheles stephensi; *Ambrosia maritima*; *Aedes aegypti*; Toxicity; Larvicide; Larval inhibition **42**, 7

Anorexia; Satiety; Proteoglycan; Plant sprout **42**, 53

Anti-inflammation; Traditional medicines; Rheumatic disorder **42**, 179

Antiinflammatory activity; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antispasmodic activity; Diuretic activity **42**, 135

Anti-inflammatory testing; *Celastrus paniculatus*; *Tecomella undulata*; Methanolic extract; Analgesic testing **42**, 193

Antimicrobial; *Rhus glabra* L.; Anacardiaceae; Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); 4-Methoxy-3,5-dihydroxybenzoic acid; Gallic acid **42**, 95

Antimicrobial screening; Cytotoxic activity; Terpenoids; Sesquiterpene lactones; Asteraceae **42**, 25

Antioxidant defense systems, Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Glutathione; Salt substitutes; Health promoting herbs and spices; Nitrosamines **42**, 83

Antispasmodic activity; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Diuretic activity **42**, 135

Antiulceration; Ethnomedicine; African medicinal plants; Acute cytotoxicity **42**, 13

Antiulcerogenic effect; Experimental ulcer; Ayurvedic formulation Cauvery-100; Mucosal defence **42**, 1

Antiviral; Medicinal plants; Africa; Mauritius; Poliovirus; Herpes Simplex Virus; Rhinovirus **42**, 101

Asteraceae; Cytotoxic activity; Antimicrobial screening; Terpenoids; Sesquiterpene lactones **42**, 25

Asteraceae; Flavonoids; *Bidens aurea*; Stress ulcer; Gastric mucus; Histomorphometric evaluation **42**, 161

Ataractic activity; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Ayurveda; *Nyctanthes arbor-tristis*; Immunostimulant screening **42**, 31

Ayurvedic formulation Cauvery-100; Experimental ulcer; Antiulcerogenic effect; Mucosal defence **42**, 1

Azadirachta indica; Toxicology; Malaria **42**, 71

Bactericidal properties; *Mitracarpus villosus*; *Streptococcus faecalis*; Tarivid; Ciproxime; *Staphylococcus aureus* **42**, 39

0378-8741/94/$07.00 © 1994 Elsevier Science Ireland Ltd. All rights reserved

Bidens aurea; Flavonoids; Asteraceae; Stress ulcer; Gastric mucus; Histomorphometric evaluation **42**, 161

Blood pressure; *Clerodendron trichotomum* Thunb.; Renal blood flow; Urine flow; Spontaneously hypertensive rat **42**, 77

Ca^{2+} current; *Panax ginseng*; Pertussis toxin-sensitive GTP-binding protein; Rat sensory neuron **42**, 45

Cassia alata; *Malassezia furfur*; *Pityriasis versicolor* **42**, 19

Celastrus paniculatus; *Tecomella undulata*; Methanolic extract; Analgesic testing; Anti-inflammatory testing **42**, 193

Chemical-induced hepatotoxicity; Fulvotomentoside; Oleanolic acid; Hepatoprotection **42**, 183

Ciproxime; Bactericidal properties; *Mitracarpus villosus*; *Streptococcus faecalis*; Tarivid; *Staphylococcus aureus* **42**, 39

***Clerodendron trichotomum* Thunb.**; Blood pressure; Renal blood flow; Urine flow; Spontaneously hypertensive rat **42**, 77

Combretum micranthum; *Guiera senegalensis*; *Euphorbia hirta*; *Melaleuca leucadendron*; Prostaglandin biosynthesis **42**, 111

Cytotoxic activity; Antimicrobial screening; Terpenoids; Sesquiterpene lactones; Asteraceae **42**, 25

Datura; Maya; Yucatan; Mexico **42**, 133

Diarrhea; Nutmeg; Hallucinogen; Indonesia; Insomnia; Ethnobotany **42**, 117

Diuretic activity; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity **42**, 135

Drug metabolizing enzymes; Mace; Transmammary; Lactation; Liver **42**, 169

Ethnobotany; Nutmeg; Hallucinogen; Indonesia; Insomnia; Diarrhea **42**, 117

Ethnomedicine; African medicinal plants; Antiulceration; Acute cytotoxicity **42**, 13

Euphorbia hirta; *Combretum micranthum*; *Guiera senegalensis*; *Melaleuca leucadendron*; Prostaglandin biosynthesis **42**, 111

Experimental ulcer; Ayurvedic formulation Cauvery-100; Antiulcerogenic effect; Mucosal defence **42**, 1

Exploratory behaviour; *Rauvolfia canescens*; Sedative activity **42**, 63

Flavonoids; *Bidens aurea*; Asteraceae; Stress ulcer; Gastric mucus; Histomorphometric evaluation **42**, 161

Fulvotomentoside; Oleanolic acid; Chemical-induced hepatotoxicity; Hepatoprotection **42**, 183

Gallic acid; *Rhus glabra* L.; Anacardiaceae; Antimicrobial; Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); 4-Methoxy-3,5-dihydroxybenzoic acid **42**, 95

Gastric mucus; Flavonoids; *Bidens aurea*; Asteraceae; Stress ulcer; Histomorphometric evaluation **42**, 161

Genomic fingerprinting; Ginseng; Polymerase chain reaction; **42**, 67

Ginseng; Genomic fingerprinting; Polymerase chain reaction; **42**, 67

Glutathione; Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Antioxidant defense systems; Salt substitutes; Health promoting herbs and spices; Nitrosamines **42**, 83

Guiera senegalensis; *Combretum micranthum*; *Euphorbia hirta*; *Melaleuca leucadendron*; Prostaglandin biosynthesis **42**, 111

Haematuria; Medicinal plants; Schistosomiasis; *Schistosoma haematobium*; Traditional healers **42**, 125

Hallucinogen; Nutmeg; Indonesia; Insomnia; Diarrhea; Ethnobotany **42**, 117

Health promoting herbs and spices; Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Antioxidant defense systems; Glutathione; Salt substitutes; Nitrosamines **42**, 83

Heimia salicifolia; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Hepatoprotection; Fulvotomentoside; Oleanolic acid; Chemical-induced hepatotoxicity **42**, 183

Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Antioxidant defense systems; Glutathione; Salt substitutes; Health promoting herbs and spices; Nitrosamines **42**, 83

Herpes Simplex Virus; Medicinal plants; Africa; Mauritius; Antiviral; Poliovirus; Rhinovirus **42**, 101

Histomorphometric evaluation; Flavonoids; *Bidens aurea*; Asteraceae; Strss ulcer; Gastric mucus **42**, 161

Immunostimulant screening; *Nyctanthes arbor-tristis*; Ayurveda **42**, 31

Indonesia; Nutmeg; Hallucinogen; Insomnia; Diarrhea; Ethnobotany **42**, 117

Insomnia; Nutmeg; Hallucinogen; Indonesia; Diarrhea; Ethnobotany **42**, 117

Lactation; Mace; Transmammary; Drug metabolizing enzymes; Liver **42**, 169

Larval inhibition; *Ambrosia maritima*; *Anopheles stephensi*; *Aedes aegypti*; Toxicity; Larvicide **42**, 7

Larvicide; *Ambrosia maritima*; *Anopheles stephensi*; *Aedes aegypti*; Toxicity; Larval inhibition **42**, 7

Leguminosae; Snake venom; Perocarpan **42**, 199

Liver; Mace; Transmammary; Lactation; Drug metabolizing enzymes **42**, 169

Lyfoline; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Lythraceae alkaloids; *Heimia salicifolia*; Vertine/cryogenine; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Lythrine; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Mace; Transmammary; Lactation; Drug metabolizing enzymes; Liver **42**, 169

Malaria; *Azadirachta indica*; Toxicology **42**, 71

Malassezia furfur; *Cassia alata*; *Pityriasis versicolor* **42**, 19

Mauritius; Medicinal plants; Africa; Antiviral; Poliovirus; Herpes Simplex Virus; Rhinovirus **42**, 101

Maya; *Datura*; Yucatan; Mexico **42**, 133

Medicinal plants; Africa; Mauritius; Antiviral; Poliovirus; Herpes Simplex Virus; Rhinovirus **42**, 101

Medicinal plants; Schistosomiasis; *Schistosoma haematobium*; Haematuria; Traditional healers **42**, 125

Melaleuca leucadendron; *Combretum micranthum*; *Guiera senegalensis*; *Euphorbia hirta*; Prostaglandin biosynthesis **42**, 111

Methanolic extract; *Celastrus paniculatus*; *Tecomella undulata*; Analgesic testing; Anti-inflammatory testing **42**, 193

4-Methoxy-3,5-dihydroxybenzoic acid; *Rhus glabra* L.; Anacardiaceae; Antimicrobial; Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); Gallic acid **42**, 95

Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); *Rhus glabra* L.; Anacardiaceae; Antimicrobial; 4-Methoxy-3,5-dihydroxybenzoic acid; Gallic acid **42**, 95

Mexico; *Datura*; Yucatan; Maya **42**, 133

Mitracarpus villosus; Bactericidal properties; *Streptococcus faecalis*; Tarivid; Ciproxime; *Staphylococcus aureus* **42**, 39

Mucosal defence; Experimental ulcer; Ayurvedic formulation Cauvery-100; Antiulcerogenic effect **42**, 1

***N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG)**; Herbal food additive; Antioxidant defense systems; Glutathione; Salt substitutes; Health promoting herbs and spices; Nitrosamines **42**, 83

Nesodine; *Heimia salicifolia*; Lythraceae alkaloids; Vertine/cryogenine; Lythrine; Lyfoline; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Nitrosamines; Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Antioxidant defense systems; Glutathione; Salt substitutes; Health promoting herbs and spices **42**, 83

Nutmeg; Hallucinogen; Indonesia; Insomnia; Diarrhea; Ethnobotany **42**, 117

Nyctanthes arbor-tristis; Immunostimulant screening; Ayurveda **42**, 31

Oleanolic acid; Fulvotomentoside; Chemical-induced hepatotoxicity; Hepatoprotection **42**, 183

Panax ginseng; Ca^{2+} current; Pertussis toxin-sensitive GTP-binding protein; Rat sensory neuron **42**, 45

Pertussis toxin-sensitive GTP-binding protein; *Panax ginseng*; Ca^{2+} current; Rat sensory neuron **42**, 45

Pityriasis versicolor; *Cassia alata*; *Malassezia furfur* **42**, 19

Plant sprout; Satiety; Anorexia; Proteoglycan **42**, 53

Poliovirus; Medicinal plants; Africa; Mauritius; Antiviral; Herpes Simplex Virus; Rhinovirus **42**, 101

Polymerase chain reaction; Ginseng; Genomic fingerprinting; **42**, 67

Prostaglandin biosynthesis; *Combretum micranthum*; *Guiera senegalensis*; *Euphorbia hirta*; *Melaleuca leucadendron* **42**, 111

Proteoglycan; Satiety; Anorexia; Plant sprout **42**, 53

Pterocarpan; Snake venom; Leguminosae **42**, 199

Rat sensory neuron; *Panax ginseng*; Ca^{2+} current; Pertussis toxin-sensitive GTP-binding protein **42**, 45

Rauvolfia canescens; Sedative activity; Exploratory behaviour **42**, 63

Renal blood flow; *Clerodendron trichotomum* Thunb.; Blood pressure; Urine flow; Spontaneously hypertensive rat **42**, 77

Rheumatic disorder; Traditional medicines; Anti-inflammation **42**, 179

Rhinovirus; Medicinal plants; Africa; Mauritius; Antiviral; Poliovirus; Herpes Simplex Virus **42**, 101

***Rhus glabra* L.**; Anacardiaceae; Antimicrobial; Methyl ester of 3,4,5-trihydroxybenzoic acid (methyl gallate); 4-Methoxy-3,5-dihydroxybenzoic acid; Gallic acid **42**, 95

Salt substitutes; Herbal food additive; *N*-Methyl-*N'*-nitro-*N*-nitrosoguanidine (MNNG); Antioxidant defense systems; Glutathione; Health promoting herbs and spices; Nitrosamines **42**, 83

Satiety; Anorexia; Proteoglycan; Plant sprout **42**, 53

Schistosoma haematobium; Medicinal plants; Schistosomiasis; Haematuria; Traditional healers **42**, 125

Schistosomiasis; Medicinal plants; *Schistosoma haematobium*; Haematuria; Traditional healers **42**, 125

Sedative activity; *Rauvolfia canescens*; Exploratory behaviour **42**, 63

Sesquiterpene lactones; Cytotoxic activity; Antimicrobial screening; Terpenoids; Asteraceae **42**, 25

Snake venom; Pterocarpan; Leguminosae **42**, 199

Spontaneously hypertensive rat; *Clerodendron trichotomum* Thunb.; Blood pressure; Renal blood flow; Urine flow **42**, 77

Staphylococcus aureus; Bactericidal properties; *Mitracarpus villosus*; *Streptococcus faecalis*; Tarivid; Ciproxime **42**, 39

Streptococcus faecalis; Bactericidal properties; *Mitracarpus villosus*; Tarivid; Ciproxime; *Staphylococcus aureus* **42**, 39

Stress ulcer; Flavonoids; *Bidens aurea*; Asteraceae; Gastric mucus; Histomorphometric evaluation **42**, 161

Tarivid; Bactericidal properties; *Mitracarpus villosus*; *Streptococcus faecalis*; Ciproxime; *Staphylococcus aureus* **42**, 39

Tecomella undulata; *Celastrus paniculatus*; Methanolic extract; Analgesic testing; Anti-inflammatory testing **42**, 193

Terpenoids; Cytotoxic activity; Antimicrobial screening; Sesquiterpene lactones; Asteraceae **42**, 25

Toxicity; *Ambrosia maritima*; *Anopheles stephensi*; *Aedes aegypti*; Larvicide; Larval inhibition **42**, 7

Toxicology; *Azadirachta indica*; Malaria **42**, 71

Traditional healers; Medicinal plants; Schistosomiasis; *Schistosoma haematobium*; Haematuria **42**, 125

Traditional medicines; Rheumatic disorder; Anti-inflammation **42**, 179

Transmammary; Mace; Lactation; Drug metabolizing enzymes; Liver **42**, 169

Urine flow; *Clerodendron trichotomum* Thunb.; Blood pressure; Renal blood flow; Spontaneously hypertensive rat **42**, 77

Vertine/cryogenine; *Heimia salicifolia*; Lythraceae alkaloids; Lythrine; Lyfoline; Nesodine; Ataractic activity; Antiinflammatory activity; Antispasmodic activity; Diuretic activity **42**, 135

Yucatan; *Datura*; Mexico; Maya **42**, 133
